

Name _____

WILL APPLE SEEDS SINK OR FLOAT?

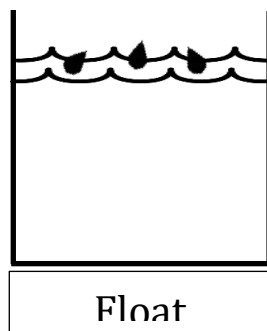

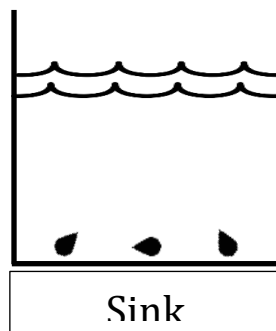

Directions: Today, you will perform an experiment to find out if apple seeds **sink** (go below the water) or **float** (stay above the water). Before scientists perform an experiment, they make a **prediction** (an educated guess) about what will happen.

1. Do you predict that apple seeds will sink or float? Circle your answer.

Now perform the experiment with an adult!

2. Did your apple seeds sink or float? Circle your answer.

3. Was your prediction correct? Circle your answer.
